**INFORMATION REPORT/REFERRED:** This Information Report (IR) is being generated following the receipt of information from Confidential Source (CS) (b) (6), (b) (7)(C), (b) (7)(D), involving the U.S. Army Space & Missile Defense Command contract W9113M-07-D-0005/ Task Order 0017, which was awarded to Blackwater Lodge and Training Center, Inc. (Blackwater), Moyock, NC, on August 24, 2007. The CS provided specific information concerning potential violations occurring in Afghanistan involving improper billing of labor hours, the theft of U.S. Government property, improper use of Title 22 (Afghanistan funds) equipment, and several instances of security violations.

With regard to the allegation involving improper labor charging, according to the CS, a monthly billing verification sheet showing each day worked/paid is supposed to be certified. The CS claims that for an extended period of time, he/she did not sign a verification sheet, and did not know what amount Blackwater was billing the customer. Once the CS finally reviewed a billing verification sheet, he/she observed that there was a designated "day off" even though the CS had been asked to work seven days a week. In addition, the CS had concerns regarding the manner in which time off/leave was authorized by Blackwater. The CS also provided information relating to an alleged theft of U.S. Government property from the U.S. Navy construction battalion area on the Kandahar Airfield. The CS recounted an additional allegation involving the misappropriation of items by Blackwater personnel involving equipment purchased with Title 22 funds by the U.S. Government, which were specifically intended for use by the Afghanistan Border Police. The CS related that a number of security violations were also occurring in Afghanistan, including the lack of security clearances for Blackwater personnel required to possess sensitive equipment, and the proper storage of classified material. The CS has indicated that certain members of Blackwater's management were made aware of the security violations and chose to ignore them.

A query of the DoD Electronic Document Access (EDA) database was conducted for contract W9113M-D-0005 yielding positive results. Ten documents relating specifically to delivery order/task order 0017 were also located in EDA. Upon receipt of this IR, please contact SA (b) (6), (b) (7)(C), DCIS Norfolk Resident Agency (RA), for additional information. This IR is being forwarded to the DCIS Southwest Asia RA – Afghanistan POD, the DCIS Raleigh RA, and Defense Security Services, Virginia Beach, VA, for informational purposes and any action deemed appropriate.
